9:00 am:

JT & Paul lead introductions, make announcements, explain today's work

Laura introduce work on Port property

JT explain jobs and set-up teams

Safety Talk : Bret

T-shirts & Group Photo

Announcements

This is our first work party on SWIFT Center property. We are breaking new ground on a series of trail segments that we are referring to as Phase 1. We are contracted for 5 work parties for the remainder of 2025 and hope to knock out the lowland portions of this trail pretty quickly.

However, it all depends on materials and the lay of the land. We have walked the area a few times. Staff from the Port have done the rough-in work with larger equipment where possible. Laura Schumacher, Environmental and Planning Manager for the Port, is here and will be providing more information about the project requirements.

Things may not move as fast today as you are used to. Please be patient with us as we work out the kinks 😊. Today is mostly about establishing the trail tread. This may include setting some rock.

Anna will be taking our group photo and documenting the day.
